

## **RSI** is re-roofing 6 buildings at the Mark II Business Park

**RSI Roofing** of San Diego has signed a contract with *Sentre Partners* to re-roof six different buildings, with a total of over 170,000 square feet located at their Mark II Business Park in Miramar. **RSI** is installing a *Firestone* 60-mil Single-Ply TPO roofing system. The white-reflective roofing membrane will help keep the buildings cool and offset some of the energy costs associated with this heat wave in San Diego. *“The system that Sentre Partners picked will provide the center with a quiet-clean installation that is odorless and provides little disturbance to the tenants and their customers.”* David Susi, president-**RSI Roofing**
