

## **RSI Roofing Re-Roofing Mart Square in La Mesa**

**RSI Roofing** of San Diego has signed a contract with the owner of “Mart Square,” a shopping center located in La Mesa, CA. **RSI** is re-roofing three different buildings and performing Roof Maintenance on one of the buildings covering a total of 35,000 square feet. **RSI** is installing a *Firestone* Single-Ply 45-mil TPO system. This is a white reflective roofing solution that helps reduce energy costs associated with heat entering the building through the roof. *“Right now is the best time for Property Managers and Owners to buy Single Ply roofing. Costs are down 25-40% due to the economy, and prices like these will not be seen again. Our goal is to cover San Diego with Sustainable Roofs and Single Ply is one of the most affordable options right now.”*

David Susi, President – **RSI Roofing**
